

The Intelligence Layer for Modern B2B Lending

Orbii helps fintech lenders, neobanks, and tech startups launch and scale lending programs effortlessly. Make instant, hyper-accurate credit decisions with our AI-powered platform.

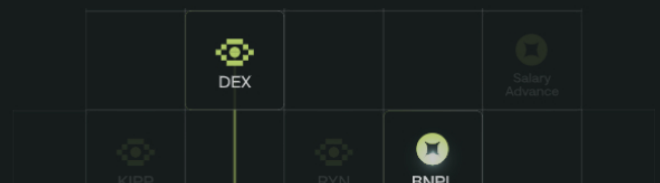

[Book a demo](#)

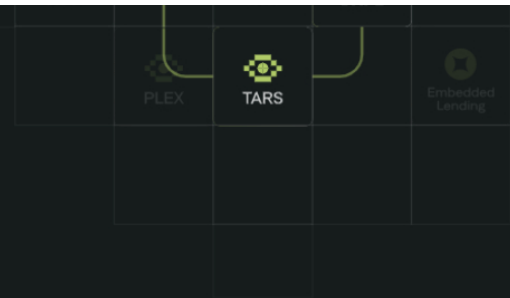

■ MODULAR INFRASTRUCTURE

Credit infrastructure that scales with your

roadmap

Launch, test, and manage lending products across your stack — without building a credit function. Orbii's modular system lets you add decisioning, scoring, and compliance only when you need it.

■ AUTOMATED UNDERWRITING

Automated credit decisioning, built for scale.

Orbii transforms raw financial data into lending decisions in seconds. Our platform handles data ingestion, parsing, enrichment, and scoring — so you can approve more, faster, with less manual overhead.

- ➡ API + CSV/PDF support
- ➡ Automated income & expense classification
- ➡ Dynamic scoring models with risk thresholds
- ➡ Real-time decision delivery via webhooks

■ BORROWER INTELLIGENCE

Complete borrower intelligence, from day one.

Orbii enriches raw bank data to create a dynamic profile of each applicant — cash runway, behavioral risk, credit signals, and repayment capacity — so you never underwrite in the dark.

- ➡ 1,000+ derived financial metrics
- ➡ Behavior-based default prediction
- ➡ Business health & cashflow mapping
- ➡ Continuous model improvement via feedback loops

Built for your business model

Fintech Lenders

Use plug-and-play risk tooling and automated workflows to underwrite faster without growing your team.

Scale loan approvals with confidence.

For Neobanks

Go live with salary advance, consumer loans, or credit builder cards in 48 hours — built for GCC markets.

Ship credit lines without credit infra.

For Startups

Prove unit economics with merchant financing, working capital, or embedded lending tools.

Embed financing into your product

Merchant Financing

Working Capital

Embedded Lending

BNPL

Salary Advance

■ BUILT FOR GROWTH

Launch lending faster, scale smarter

Test new lending ideas, onboard your first borrowers, and scale with confidence. Whether you're embedding financing into your platform or standing up your first credit line, Orbii gives you the infrastructure to move quickly — no risk team, no compliance lift.

Book a demo

■ PHASE 1

Train your model

Feed your historical data or start from Orbii's GCC-native datasets to build explainable, risk-adjusted lending logic from day one.

■ PHASE 2

Plug into your tools

Integrate in minutes via Slack, HubSpot, or Zapier — no dev lift required. Operate inside the tools you already use.

■ PHASE 3

Launch your first product

Start with merchant financing, salary advance, or embedded

loans — spin up a live offer in 48 hours.

■ PHASE 4

Track and optimize

Get visibility across approvals, repayments, and drop-off. Test policies, tweak thresholds, and grow your credit business with control.

■ MODULAR AI INFRA

Empowering Decisions with Orbii's AI Models

■ TRANSACTION

DEX

Multi-tiered business transaction
classifications

CASE

Validate company behaviour based on
blueprint business activities & trade

■ DESIGNED FOR DEVELOPERS

Built for modern dev teams

Save engineering time with a single API that covers everything from eligibility to collections. We handle the complexity of credit risk, data

■ FINANCIAL INTERACTIONS

PLEX

Get a multi-dimensional view on the financial chain of interactions of the business using graph intelligence

■ FUTURE COMPANY HEALTH

KIPP

Predicted future company performance & risk
